Anthropic Certified Claude Developer | MERN Developer :

Developer build solution designed to integrate seamlessly or serve as foundations for new operations. Trusted creator of systems aimed at powering increased revenue and growing profits. I am looking for a full-time Job opportunity that offers professional challenges utilizing interpersonal skills, excellent time management and problem-solving skills.

SKILLS:

- **AI :** Anthropic Certified Claude Developer
- **Front End :** ReactJS ,HTML ,CSS
- **Back End :** NodeJS API Development
- **Database :** MySQL DB, Mongo DB

WORK EXPERIENCE:

Claude Developer | MERN Developer , Tata Consultancy Services (TCS) June,2022 - Present (5 yrs)

- Led the design and delivery of a React, Redux, and AI-assisted product tour strategy, driving customer adoption, increasing platform revenue by 40%, and reducing frontend code complexity by 57% through scalable architecture and modernization initiatives.
- Directed cross-functional collaboration with UX/UI, product, and engineering teams to build responsive, accessible, and cross-browser-compatible experiences, significantly enhancing user engagement and overall customer satisfaction.
- Championed the adoption of Claude AI Developer workflows for code generation, refactoring, debugging, technical documentation, and code reviews, accelerating development velocity while improving code quality and team productivity.
- Architected and mentored development of backend systems using Node.js, Express.js, JWT authentication, REST APIs, and third-party integrations, resulting in a 52% improvement in customer satisfaction and more secure, reliable services.
- Spearheaded the migration to microservices architecture and cloud-native AWS solutions (EC2, S3, RDS, API Gateway, Lambda), improving scalability, maintainability, and operational efficiency while supporting business growth.
- Established monitoring, observability, and data optimization best practices through Amazon CloudWatch, database performance tuning, and CDP/ETL modernization, reducing operational workload by 70% and minimizing production downtime.
- Provided technical leadership in Agile Scrum environments, partnering with QA, frontend, backend, and product stakeholders to deliver high-quality releases with 95% delivery efficiency while reducing production defects and bug-related issues by 73%.
